ALPHABETICAL LIST OF MICROMORPHOLOGICAL TERMS

ENGLISH

accommodated (47)
accommodation (degree of) (46)
aggregate nodule (180)
aging (of excrements) (218)
alteration (120)
alteromorph (124)
alteromorphic nodule (181)
amorphous organic fine material (94)
angular blocky (microstructure) (65)
anorthic (nodule) (188)
arrangement (1)

bacillo-cylinder (210)
banded (distribution) (15)
basic (distribution, orientation) (11)
b-fabric (100)
biospheroids (178)
bipointed cylinder (212)
bistrial (b-fabric) (118)
bow-like (distribution, orientation) (26)
boxwork (135)
bridged grain (microstructure) (67)

capping (160)
cavernous residue (alteration pattern) (131)
cells (92)
cell residue (93)
c/f limit (32)
c/f-ratio (33)
c/f related distribution (31)
chamber (56)
chamber (microstructure) (69)
channel (55)
channel (microstructure) (68)
chitonic (34)
clonocylinder (213)
close (c/f related distribution) (39)
cloudy (88)
clustered
circular striated (b-fabric) (107)
coalescence (of excrements) (219)

coating (153)
complex (packing voids) (51)
complex pedofeatures (148)
compound layered (clay coating) (169)
compound packing voids (52)
compound pedofeatures (144)
concentric (distribution, orientation) (25)
concentric-striated (b-fabric) (108)
conoid (206)
contact void (136)
crescent (coating) (163)
crescent (distribution, orientation) (27)
crescent-striated (b-fabric) (109)
cross linear (alteration pattern) (125)
crosstriated (b-fabric) (110)
crumb (60)
crumb (microstructure) (70)
crust (158)
cryptocrystalline (194)
crystal intergrowths (176)
crystallitic (b-fabric) (102)
cylinder (209)

deformed pedofeatures (149)
dendritic nodule (182)
dense complete (171)
dense incomplete (172)
depletion pedofeature (142)
disintegration of excrements (220)
dissolved pedofeatures (150)
disorthic (nodule) (189)
dispersed minute residues (alteration pattern) (133)
distribution (9)
distribution (13)
dotted (87)
dotted (alteration pattern) (126)
double spaced (c/f related distribution) (41)

ellipsoid (205)
enaulic (35)
external (hypocoating, quasicoating) (157)
excrement (203)

fabric element (3)
fabric pedofeature (143)
fabric unit (6)
fragmented pedofeature (151)
fan-like distribution (16)
framboids (177)

galaxy fabric (30)
gefuric (36)
geodic (nodule) (183)
granostriated (b-fabric) (111)
granular (microstructure) (71)
granule (61)
grooved plate (214)
groundmass (99)

hypidiotopic fabric (197)
hypo-coating (154)

idiotopic fabric (195)
imbricated pedofeatures (147)
impregnative pedofeature (141)
inclined orientation (23)
infilling (170)
integrated fabric (4)
intercalation (200)
intergrain microaggregate (microstructure) (72)
interlaced (201)
interlaced distribution (17)
internal (hypocoating, quasicoating) (156)
intrusive pedofeature (140)
irregular linear (alteration pattern) (127)
isomorphous (alteration) (121)

juxtaposed pedofeatures (145)

katamorphous (alteration) (122)
kink band fabric (152)
kinking (b-fabric) (119),

laminated (clay coating) (167)
layered (clay coating) (168)
lenticular (microstructure) (73)
limpid (85)
limpidity (84)
linear distribution (14)
linear (alteration pattern) (128)
link capping (161)
lithomorphic (nodule) (190)
loose continuous (173)
loose discontinuous (174)

macrocrystalline (192)
mammilated (excrement) (216)
massive (microstructure) (74)

matrix pedofeatures (139)
mesomorphous (alteration) (123)
microcrystalline (193)
microlaminated (clay coating) (166)
micromass (83)
micropan (159)
microstructure (43)
mitoid (215)
moldic voids(59)
monic (37)
monomorphic o.m. (97)
monostriated (b-fabric) (112)
mozaic speckled (b-fabric) (105)

nodule (179)
nonlaminated (clay coating) (165)
nucleic (nodule) (184)

observed fabric (5)
open (c/f related distribution) (42)
organ residue (89)
organic fine material (91)
organic pigment (96)
organized residues (alteration pattern) (132)
orientation (10)
orthic (nodule) (187)

packing void (50)
parallel orientation (22)
parallel striated (b-fabric) (113)
partial fabric (7)
passage feature (175)
patchy (alteration pattern) (129)
pattern (8)
ped (62)
pedofeature (138)
pedomorphic (nodule) (191)
pellicular (alteration pattern) (130)
pellicular grain (microstructure) (75)
pendent (162)
perpendicular orientation (21)
plane (58)
plate (63)
platy (microstructure) (76)
poikilitopic fabric (199)
pointed tailed conoid (208)
polled bacillo-cylinder (211)
polymorphic o.m. (98)
poroid (49)

porostriated (b-fabric) (114)
porphyric (38)
porphyrotopic fabric (198)
prism (64)
punctuations (organic) (95)

quasi-coating (155)

radial (24)
random (distribution, orientation) (12)
random striated (b-fabric) (115)
referred (distribution, orientation) (19)
related (distribution, orientation) (28)

separated (45)
separation (degree of) (44)
septa (137)
septaric (nodule) (185)
serrated (202)
simple (packing void) (53)
single grain (microstructure) (77)
single spaced (c/f related distribution) (40)
soil fabric (2)
speckled (86)
speckled (b-fabric) (103)
sphere (204)
spheroidal (microstructure) (78)
spongy (microstructure) (79)
stipple speckled (b-fabric) (104)
strial (b-fabric) (116)
striated (b-fabric) (106)
striated orientation (18)
subangular blocky (microstructure) (66)
superimposed pedofeatures (146)

tailed conoid (207)
tissue (residues) (90)
tuberosity (excrement) (217)
tubular (alteration pattern) (134)
turbate fabric (30')
typic (coating) (164)
typic (nodule) (186)

undifferentiated (101)
unistrial (b-fabric) (117)
unreferred (distribution, orientation) (20)
unrelated (distribution, orientation) (29)

vermicular (microstructure) (80)

vesicle (54)
vesicular (microstructure) (81)
void (48)
vugh (57)
vughy (microstructure) (82)

xenotopic fabric (196)
